

# B-1T

Magnetic contacts constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Medium-size **B-1T** magnetic contacts are designed for surface mounting and equipped with connection terminals. They can only be mounted by screwing them to a surface. The contacts are available in white and brown colour versions.

- surface mounted (screw mount)
- medium sized sealed body

Max. reed switched voltage	100
